The Buffalo EM 020 Locktech safe after a bushfire

In 2009, Victoria suffered horrendous bushfires during Black Saturday.

The Locktech Buffalo EM020 Safe was found amongst the smouldering ash of a home several days after the fire had passed.

Prying open the safe revealed that all the contents including marriage certificates and other important documentation were intact.

It is estimated that the fire front reached temperatures in excess of 1,000°C.
